Corps/Unit: Houston Northwest Corps

Officer/Director/Branch Manager: Chapel Media Update

Item/Project Requesting: Capts Ian and Brittany Carr

Description of how the item/project will be used:

We are seeking to replace our failing media projectors in the chapel.

New projectors will be used to display worship presentations, videos, scripture, announcements, educational materials, and community program content in our chapel and gathering spaces. It will replace aging standard-definition projectors with a modern high-definition solution that provides clearer text, brighter images, and improved visibility for all attendees.

This upgrade is needed because the current projection equipment is outdated and no longer provides reliable image quality for presentations, worship services, youth programming, community meetings, and special events. The new projector will support HDMI-based technology, improve accessibility for participants seated throughout the room, and ensure presentations are clear and readable in a larger shared space. It will also integrate with updated audiovisual infrastructure, allowing for more effective communication, engagement, and program delivery.

Project (Bid Attached):
