

THE SALVATION ARMY
 WOMEN'S AUXILIARY
 HOUSTON, TEXAS
 GRANT REQUEST
 FORM 2026

IT	_____
Properties	_____
BGC ED	_____

DUE May 1st, 2026

Corps/Unit: Houston Northwest Corps

Officer/Director/Branch Manager: Church Broadcast Equipment

Item/Project Requesting: Capts Ian and Brittany Carr

Description of how the item/project will be used: _____

Research consistently shows that churches experiencing healthy growth are increasingly intentional about their online ministry presence, recognizing that livestreams, digital engagement, and online accessibility often serve as a first connection point for new visitors and an ongoing ministry tool for members who cannot attend in person. Improving the quality of our livestream allows us to better reach homebound individuals, families exploring the church, younger generations who engage digitally first, and community members who may encounter our ministry online before ever visiting in person. To support this growing outreach, we are requesting a FoMaKo PTZ (Pan-Tilt-Zoom) auto-tracking camera system. This professional livestream camera automatically follows speakers and presenters without requiring a dedicated camera operator, producing a smoother, more engaging viewing experience. The system provides remote camera control, intelligent tracking, and high-quality video capture, helping create a more polished and accessible online worship experience that strengthens our ability to minister both inside and outside the walls of the church.
