DUE May 1st, 2026

Corps/Unit: Houston Northwest Corps

Officer/Director/Branch Manager: Captain Ian Carr

Item/Project Requesting: Chapel Projector Screens

Description of how the item/project will be used: _____

The The Salvation Army Houston Northwest Corps is seeking grant support to replace aging projection screens used in our chapel worship and presentation system. Our current screens were designed for older full-screen projection formats and no longer meet the needs of modern high-definition widescreen presentations. Over time the existing screens have become dim, worn, and less effective, reducing image clarity and overall visibility during worship services, teaching, community events, and livestream-supported ministry activities.

We are requesting funding to purchase new high-definition widescreen projection screens designed specifically for modern HD presentation environments. The new screens feature improved light rejection and image performance, helping produce brighter, clearer visuals that are easier to see throughout the chapel space. These upgraded screens will enhance worship presentations, scripture and song lyric visibility, video content, and special event programming while creating a more engaging and professional experience for both in-person attendees and online viewers. The selected screens also include the necessary mounting hardware and are designed for long-term reliability in a ministry setting.

Project (Bid Attached):
